**EpicReact by Kent C. Dodds** 08/2021 - present

## PROFESSIONAL SUMMARY

Detail-oriented Systems Analyst committed to improving system design and operations for reliable workflow management. Combines sound technical frameworks with appealing media assets to generate front end solutions focused on expanding user bases. Judicious and creative when crafting effective websites, apps and platforms to propel competitive advantage and revenue growth. Technically proficient and analytical problem solver with calm and focused demeanor.

## WORK HISTORY

June 2021 – January 2022

**Application System Analyst 1**, Essentium, Inc, Pflugerville, TX/ Remote

- Planned and conceived computer systems using information engineering, data modeling and structured analysis.
- Assessed, defined and document scope of projects.
- Created a simple-to-use interface, multiple database tables, and analytics that reduced the need to do manual arithmetic and freed approximately 120 minutes per week using Tulip's Low Code platform.
- Presented business leaders with cost-benefit and return-on-investment estimations to drive project planning and execution.
- Investigated and addressed system issues to enhance usability and improve functionality.
- Defined business goals to determine systems requirements.
- Collaborated with Project Manager to translate business needs into simple and usable technology, while also presenting ideas and solutions for new projects.
- Communicated with product managers and UX designers to translate project requirements and business objectives into polished user interfaces.

January 2021 - June 2021

**Front End Developer Intern**, Concept.app, Remote

- Managed full-cycle design tasks, handling phases from conception to completion while maintaining guidelines throughout.
- Worked in Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Designed and updated layouts to meet usability and performance requirements.
- Devised site maps, user flows, wireframes and mockups for designs based on proven methodologies, stakeholder requests and end-user feedback.
- In charge of converting complex UI designs into a responsive and interactive profile page using React.js, flexbox, and CSS grid.
- Collaborated with teammates to deliver valuable features meeting business and customer needs.

February 2020 - June 2021

**Manufacturing Technician**, Essentium, Inc, Pflugerville, TX

- Prepared production documents such as standard operating procedures, manufacturing batch records and productivity reports.
- Tested products or subassemblies for functionality or quality and troubleshoot problems

- Advanced React patterns, custom hooks, performance, and testing.

**Coding Dojo, Coding Bootcamp** | *Full-stack Web Development - Courses: Python, MEAN* 11/2018 - 04/2019

- Earned Black Belt, Coding Dojo's highest knowledge levels in Python and MEAN stack.
- 1000+ hours of code and web development.

## FREELANCE

**Content Creator's Landing Page, [tanialucely.com](https://tanialucely.com)** - 2020

Created a landing page that helped monetize the client's time and improve customer experience through a more convenient means of scheduling meetings.

- Designed a mobile responsive, dual language website (English and Spanish) to reach a greater client base.
- Integrated Acuity to streamline scheduling, accept payments, and automate emails.

with equipment, devices or products.

- Calibrated machines to maintain required productivity levels and adherence to quality standards.

January 2016 - January 2019

**Delivery Driver**, Service Staffing & Appleby & Co, Riverside, CA

- Completed on-time deliveries by choosing best and most efficient routes.
- Kept detailed records of completed or in-progress deliveries using hand-held devices and camera images.
- Operated vehicle safely in highly congested areas with no traffic violations.

January 2013 - January 2016

**Sales Floor/ Cashier**, Target, Northridge, CA

- Answered questions about store policies and addressed customer concerns.
- Helped customers complete purchases, locate items and join reward programs.
- Monitored self-checkout systems and provided assistance or intervention where required.

## PROJECTS

**Trade Tracker, [tradetracker.netlify.app](https://tradetracker.netlify.app)** - 2021

A personal app used to help determine position cost, share size, entry/exit points, and track purchased securities.

- Developed with React, material design UI library, and FaunaDB, a GraphQL database.

**Stock Price Targets, [Chrome Extension Link](#)** - 2022

Built and deployed a Chrome Extension that displays analysts' price targets from Tip Ranks.

- Developed with React for the frontend and uses serverless functions to scrape Tip Ranks web pages for data.
